

TECHNICAL RIDER

The FOH console needs a minimum of 24 inputs.

4-way full parametric equalization and five (5) independent auxiliary sends for each input channel.

BACKLINE: Five (5) vocal microphones (Shure SM58).

ALP-HORN + LEAD VOCAL:

XLR plug (+48V) for Wired Microphone «Shure Beta 98H» (we supply)

KEYBOARD + PIPE + BACK-VOCAL:

2 x DiBox for Keyboard. Keyboard stand. 2 x 220 V

XLR plug for Wireless Headset Microphone System «Sennheiser EW G2» (we supply).

GUITAR + BACK-VOCAL:

Guitar amplifier (Fender Twin Reverb, Mesa Boogie dual rectifier, Crate BV300, Vox VT100, Marshall JCM900).

10 meter guitar cable (jack to jack). 3x220 V

BASS-GUITAR + BACK-VOCAL:

Bass amplifier (Gallien-Krueger, Trace Elliot, Laney, Ampeg).

10 meter guitar cable (jack to jack). 220 V

DRUM KIT + BACK-VOCAL:

Semi-pro/Pro level (Pearl, DW, Tama, Yamaha, Sonor, Mapex)

Is positioned in the center of the stage on 50 cm riser.

1 x 22" bass drum (including front resonance head mounted)

1 x 12" rack tom (preferred to be suspended from cymbal stand)

1 x 16" floor tom (with legs)

1 x 18" floor tom (with legs) (optional)

*** All the drumheads must be in good condition!**

+ all suitable microphones

1 x drum throne(chair) - sturdy and adjustable, 1 x carpet 2x2 m.

Normally, we bring our own bass drum pedal, snare drum, cymbals

HARDWARE: Semi-pro/Pro series

*** Is expected to be in good working. Worn out: missing or nonoperable parts are not acceptable!**

1 x hi hat stand (including clutch)

1 x snare drum stand

1 x rack tom holder including mounting clamp for suspension from cymbal stand

3 x boom cymbal stand

PLAYBACK: 2 x DiBox. Microphone stand. 1 x 220 V

MONITORS: 5 monitor lines (min. power 500W each).

We also use **IN EAR MONITOR SYSTEMS** for **LEAD VOCALIST, KEYBOARDIST** and **GUITARIST** (We supply).

We will require a qualified audio technician to run the sound and we will assist him with the front of mix. We'll also require 2 stage-men during the sound check and during performance of the band!
